

**ZIMBALI COASTAL RESORT:
LAST BEACHFRONT SITE NOW SELLING**

Zimbali Coastal Resort was launched in 1996 with the first sales of beachfront properties and has developed over the past 12 years into a globally recognised, multi award winning resort and residential estate which offers visitors and residents the ultimate in security, privacy, harmony and exclusivity. Founded on the ethos of 'Living in Harmony with Nature', the resort has followed this guiding principle on which all management and strategic decisions are made since inception.

It is therefore apt that the sales in the Zimbali Coastal Resort draw to a close with the sale of the last available beachfront property. For those discerning individuals who understand the principle that location is everything in real estate, this last beachfront property offers the opportunity of creating a luxurious home on a superb site within the finest living environment in Southern Africa. Priced at R10 million, this 2, 241sqm site is located on the southern stretch of pristine beachfront and has been zoned with a footprint of 978 sqm.

Located 45 kilometres north of the South African port city of Durban and within close proximity to all modern amenities – including several of South Africa's impressive 'Big Five' safari game parks and historic Anglo-Zulu battlefields - Zimbali is perfectly positioned as a gateway to experience the unmatched magnificence of the KwaZulu-Natal province. Purposefully developed as one of the finest coastal residential and resort estates in Southern Africa, Zimbali exists as an oasis of stylish living.

Interested parties in the last remaining beachfront site can request further details from beachfront@zimbali.co.za. For more information please contact the Zimbali Sales Centre:
